

Seeds of Life 2017

“A World without Hunger”

This is the goal of the Canadian Foodgrains Bank (established 1983). Last year, the Foodgrains Bank helped 1.1 million people in 39 countries. How?

Through the work of 15 member churches who have people on the ground where the need is great. **The United Church of Canada is one of the 15 member churches of the Canadian Foodgrains Bank** (along with Presbyterians, Anglicans, Roman Catholics, Lutherans, Mennonites, Nazarenes, Baptists and others). Administration costs are extremely low - in fact, almost 95 percent of donated funds go directly to food assistance, nutrition, and sustainable agricultural programs. The Canadian government feels the Foodgrains Bank does such a good job that, in most cases, contributions are matched 4 to 1. Last year, the Canadian government provided \$29 million in matching funds.

We here at Port Nelson have a chance to help with a local growing project for the Foodgrains Bank. **Seeds of Life** is a 72-acre farm at Alberton, Ontario (just west of Ancaster) owned by Scott Brooks. **For \$400, you can sponsor all input costs for an acre of soybeans in 2017.** When harvested, the proceeds are about \$700 depending on weather and market prices. With matching funds from the Government of Canada **your donation could turn into as much as \$3,500 for world food assistance.** A pretty good return! Any contribution amount – large or small – will help us to plant this year's crop!
